Re: South Carolina Public Service Authority
Proposed Pee Dee Facility
PSD Permit Application
Supplemental Information Submission and Response to Comments

Dear Mr. Eller:

Per your request, attached please find the South Carolina Public Service Authority's Supplemental Submission on Technology Alternatives to and BACT Analysis for the Proposed Pee Dee Facility. This supplemental information supporting the permit application provides additional discussion on Santee Cooper's decision not to pursue the construction of an IGCC unit at the proposed Pee Dee Facility. Also attached, and per your request, is a technology evaluation of IGCC and its associated costs as compared to SCPC (Supercritical Pulverized Coal). Both attachments address the comments submitted to SC DHEC by the Southern Environmental Law Center on March 15, 2007.

Santee Cooper appreciates your time and effort in reviewing this information. If you have any questions or concerns, please contact either Ms. Julie Jordan Metts at (843) 761-8000 ext. 4688, jjmetts@santeecooper.com; or Mr. Kevin Clark at (843) 761-8000 ext. 5193, kjclark@santeecooper.com.

Sincerely,

Julie J. Metts, PE
Manager
Environmental Management
